PUBLIC SERVICE
COMMISSION

To: PSC Meeting

I am not able to attend meeting as I live in far western KY. KU serves Crittenden Co. Where I live.

Customers are suffering from extremely high winter electric bills. I am on buget Payments, but had to take \$100.00 out of savings to add to buget payments because I knew that if we had a really hot summer that I would be so far behind in my settlement Month of next February I could not pay it.

It is the older middle class that the rate increase hurts so much. We made enough that we do not qualify for heating assistance. Older people can not keep stretching their social security checks to keep up with increase in utilities.

Please consider the burden this raise in KU bill will cause to us and thousands of others.

James D. Grimes and Kay Grimes
